I. Information on the main contents of the agreement pursuant to Article 26 (2) sentence 2 GDPR

1. How is the cooperation organized in the context of joint processing?

Since the business premises of the Parties to the "Agreement on Joint Responsibility in the context of Video Surveillance of the Business Premises" are directly adjacent to each other and premises of both Parties are partly used by the other Party, it is necessary to cooperate with regard to the video surveillance of the premises. Within the framework of this cooperation, it has been determined for both parties what responsibilities, accountabilities and powers each party is entitled to with regard to data processing, insofar as this joint accountability takes place. In accordance with the legal requirements, VACOM has appointed a data protection officer who acts as a contact person for all data protection issues in connection with the joint data processing.

The parties to the agreement are jointly responsible for the lawfulness of the data processing, insofar as they process your personal data under joint responsibility.

2. Who assumes which obligations under the General Data Protection Regulation and what does this mean for you as a data subject?

c) Data protection incidents

VACOM and TREAMS share responsibility for investigating and handling actual or suspected personal data breaches. In the event of such a personal data breach, the two parties shall cooperate in good faith to achieve the implementation of their obligations under data protection law and shall ensure that any triggered notification obligations to the competent supervisory authority (Article 33 of the GDPR) or notification obligations to the data subjects (Article 34 of the GDPR) are carried out.
